

Guest Lecture on Transformative Impact of Artificial Intelligence (AI) for NCC Cadets

Date: June 27, 2024

Venue: NCC Auditorium

Guest Speaker: Ms. Pooja Koul Kachru, Lecturer of Artificial Intelligence

A guest lecture on the transformative impact of Artificial Intelligence (AI) was held at the NCC Auditorium, aimed at enlightening NCC cadets on the various facets of AI and its relevance in today's world. Ms. Pooja Koul Kachru, an AI expert, was invited to deliver the lecture. The primary objectives of the lecture were to:

- Introduce NCC cadets to the fundamentals of AI.
- Discuss the applications of AI in different fields.
- Highlight the importance of AI in defense and national security.
- Encourage cadets to explore AI and its potential benefits.

The lecture was followed by an interactive session where cadets asked insightful questions. Topics ranged from the technical aspects of AI to ethical concerns and career prospects. Ms. Pooja Koul Kachru's responses were enlightening and encouraged further curiosity and exploration.

The guest lecture was highly informative and engaging, providing NCC cadets with a comprehensive understanding of AI and its transformative potential. The session successfully highlighted the importance of AI in various domains, particularly in defense and national security, aligning with the objectives of the NCC to prepare cadets for future challenges.
