

World AIDS Day Celebration at APS Jammu Cantt

The World AIDS Day assembly organized by Paramvir House held at Army Public School Jammu Cantt on November 30, 2024, was a solemn and informative event to raise awareness about HIV/AIDS and its global impact on individuals and communities.

Several students participated in the assembly by sharing their speech and thoughts on the importance of World AIDS Day. Additionally, a short skit was performed by students, illustrating the challenges faced by those living with HIV. The skit emphasized the harmful effects of stigma and discrimination and conveyed a message of understanding and solidarity.

The assembly concluded with closing remarks from Mrs Seena Toor, who thanked all participants for their contributions. She encouraged the audience to take the knowledge gained during the assembly and spread awareness about HIV/AIDS in their communities. The speaker also called on everyone to support the ongoing fight against the epidemic by advocating for better education, reducing stigma, and supporting organizations that assist people living with HIV.

This assembly not only informed the school community about HIV prevention and treatment but also encouraged a collective commitment to ending stigma and supporting those affected by the virus. It was a powerful reminder that each of us can make a difference in the fight against HIV/AIDS by fostering an informed, compassionate, and supportive environment.
